

Government of the District of Columbia
Department of Health
Environmental Health Administration

**Bureau of Food, Drug
and Radiation Protection**

Dear Applicant:

The District of Columbia Municipal Regulations for Radiation Protection requires that all persons possessing radioactive materials be registered by the Department of Health.

The Environmental Health Administration's Bureau of Food, Drug and Radiation Protection, is the designated office responsible for implementing and enforcing the District's Radiation Protection Regulations. In order to insure that all applicable persons are in conformance with the licensure requirements, we have enclosed an application for registration of radioactive materials. Please return the completed application. An annual fee of **one hundred and twenty-five dollars (\$125.00)**, in the form of a check or money order and made payable to the D.C. Treasurer, is required. A self-addressed envelope is provided for your convenience.

Also, please be informed that pursuant to Regulations for Radiation Protection, an unannounced inspection of your facility will be conducted by personnel of our office at a future date. However, if your facility has been inspected by the Department in the last year and found to be in compliance, no inspection will be made at this time.

If you have questions or require additional information, you may call Mr. Greg Talley, Health Physicist, or Mrs. Yvonne Briscoe-Hall, Program Specialist, on (202) 535-2180.

Sincerely,

Harold D. Monroe, R. Ph.
Chief
